## CONDITIONS OF SALE

---

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea. All entries must be clearly tattooed in the ear with their correct tattoo letters and numbers in accordance with the Regulations of the Shorthorn Society, and any animal found not being so tattooed will be reported to the Directors of the Scottish Shorthorn Breeders' Association, and such animal may be rejected from the Show and Sale. Twins must be so described, also whether twin with a bull or heifer.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement. Animals affected with any disease of an infectious nature or animals out of an infected Herd are strictly prohibited from being brought to the premises occupied or used by the Company at the time and should any such be brought, the Owner or Consigner will be held responsible for all damage or loss occasioned thereby.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the Sale thereof. Lots shall only be removeable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum*

*per Annum* and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) If the option to re-test is given, the Purchaser may require the Single Intradermal Comparative Test for Tuberculosis. The Purchaser may also require the animal to be submitted to the Agglutination Test for Contagious Abortion at a laboratory approved by the Ministry of Agriculture, Fisheries, and Food, and if a test for Johne's Disease is required, it shall be the Complement Fixation Test for Johne's Disease to be carried out at the Weybridge Laboratory of the Ministry of Agriculture, Fisheries, and Food. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of the Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between the Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing and in the case of a test for Tuberculosis on an animal in an Attested Herd, after permission has been obtained from the Ministry of Agriculture, Fisheries, and Food. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable, and provided that in the case of the Test for Tuberculosis, it shall only be carried out after an interval of not less than thirty days following any previous Test for Tuberculosis.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at

the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.

(g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.

(h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his Certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale, whichever is the earlier date.

It shall be understood that this guarantee does not operate where a bull from an Attested Herd is sold to go to Non-Attested Premises.

9. All females born after 1st August, 1955, must be certified to have passed the Agglutination Test for Contagious Abortion within three months of date of Sale, or must have been vaccinated. The blood samples for the Agglutination Test must have been taken by a Veterinary Surgeon and submitted by him to an approved laboratory. Animals having passed the test must not, prior to the Show and Sale, come into contact with any animal

that is known to be infected with Contagious Abortion. The entry of any animal which has not passed the Agglutination Test but which has been vaccinated, can only be accepted providing that one of the following certificates (signed by a Veterinary Surgeon) is supplied:—

- (a) That the animal was inoculated with Br. Abortus Vaccine No. 1 (Strain 19) when between four and eight months old and within three years of date of Sale, or
- (b) That the animal having passed the Agglutination Test was then vaccinated within fourteen days with Br. Abortus Vaccine No. 1 (Strain 19) when over eight months old and within three years of date of Sale, or
- (c) That the animal having been previously vaccinated in accordance with either (a) or (b) was re-vaccinated within three years of the previous vaccinations and not more than three years prior to date of Sale.

10. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

11. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

12. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

13. Private Sale. Each animal entered in the Catalogue must be offered for sale by Auction before any private sale shall be allowed or recognised by the Auctioneers. The usual commission must be paid on all animals afterwards sold privately within the premises of the Auctioneers.

14. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

15. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

# BALBITHAN HERD

## DISPERSAL SALE OF ATTESTED PEDIGREE BEEF SHORTHORNS

**The Property of  
The Ashdale Land & Property Co., Ltd., Balbithan,  
Kintore, Aberdeenshire.**

---

No warranty is given with these animals, but all particulars in the Catalogue are correct to the best knowledge of the owner.

---

**The following animals were bred by  
Mr. James Stott, Balbithan, except Lot No. 497.**

---

**T**HE Balbithan Herd was founded in 1949 with a first purchase of two heifers at the famous Perth Sales.

One of these heifers was Millhills Golden Bud 4th (reserve champion female), whose first calf born at Balbithan was the 1951 Perth supreme champion. This gave the herd a flying start, and since its foundation it has consistently been in the honours list. It would probably be true to say that no other herd has equalled its immediate rise to fame and continuing success.

The supreme championship, reserve supreme championship, senior championship, junior championship, first winner of the South Africa Trophy, as well as numerous successes at county shows, have all been won by the herd.

The second heifer purchased was Baldowrie Augusta Rose, a daughter of the famous Pittodrie Uprise which realised the magnificent figure of 14,000 guineas in 1946. Baldowrie Augusta Rose, a beautiful type, was to prove an equally good buy, for she bred many heifers, all of which were the same outstanding quality as herself. These in turn have bred bulls which fetched high figures at the Perth Sales.

**With one exception, no female has ever been sold out of the herd.**

Another notable purchase was Calrossie Clipper Rhoda from the famous herd of Captain MacGillivray. One of her herd-bred daughters produced a bull which realised the record price at the Palermo Sale in 1956. In 1957 a son of Balbithan Banker, sold at Perth in 1955 to Señor Adolpho Pinero for 3400 guineas, won the

supreme championship, calf championship, and best Shorthorn animal of the Exhibition at the Tandil Show in Argentina. Another Balbithan bull, Balbithan Spring Morning, made the second highest price at the October Palermo Show in 1959. Balbithan Shorthorns have won prizes in America, Canada, and Argentina. 1959 was the **only** year a Balbithan Shorthorn bull was not lined up for the championships at Perth, and our bull that year went to Argentina, where he made the second highest price at the great Palermo Sale.

The well-known stock bull, Balbithan Bon-Accord, was the herd-bred son of Millhills Golden Bud 4th, sired by Cruggleton Bonn. He has left a heritage of outstanding females in the herd as well as siring bulls which took their share of the honours at Perth.

The stock bull, Bapton Golden Age (by the great white bull, Kirkton Hercules), has produced calves of considerable promise.

The health of the herd has always been very good, many of the cows and calves being outwintered.

Kair Snowball has produced a large number of very beautifully fleshed cattle. The present crop of yearling heifers are an extremely choice lot. Chapelton Commando won 1st prize and was reserve senior champion (to Bapton Controller) at Perth in 1957. He was purchased for the Bapton Herd for 5100 guineas. His sire won numerous prizes, including the Calrossie Cup, at the 1956 Royal Show. Chapelton Commando's full brother, Chapelton Clipper Chief, won 1st prize, junior championship, and reserve for the male championship at the Royal Highland Show, and 1st prize and junior championship, and the Calrossie Cup, at the Royal Show, in 1958.

- (78) **KIRKTON HERCULES** (381696), white, calved 22nd February, 1950, bred by the late Mr. K. P. MacGillivray—sire, Kirkton Baronet (335904); dam, (318953) Rothes Carlotta by Naemoor Marshal (345049).

Kirkton Hercules was an outstanding sire in the Bapton Herd. His females have tremendous character. Without exception, they are great milkers, and are proving to be grand breeders. Note the number of great bulls throughout the breed to-day who carry Kirkton Hercules' blood. His females have produced such notable bulls as Bapton Roan Robin, junior stock bull in the Bapton Herd; Bapton Daily Express, the 1959 Perth champion; the 4000-guineas Bapton Connoisseur; the 3000-guineas Bapton Clanroy; the 2200-guineas Bapton Cavalier; the 1800-guineas Bapton Chieftain; and also the 3300-guineas, record-priced female, Bapton Crocus Lita. Kirkton Hercules is the sire of Bapton Aurora, sold for 5000 guineas, whose three sons won the Pittodrie Cup at Perth in 1957, and included the supreme champion, Bapton Controller. Three of Hercules' daughters won the Duthie Prize at the Royal Highland Show in 1956.

- (79) **COCK-O'-THE-NORTH** (11457)—sire, Calrossie Constellation; dam, Calrossie Ramsden Moonbeam by Calrossie Ocean Wave.

Cock-o'-the-North is a bull with a tremendous head, and was sold privately at a high figure to Mr. Fred Larmour, Australia, where his calves are reported to be outstanding. Bapton Robbie Burns is the only calf he sired in this country. Calrossie Ramsden Moonbeam is the grand-dam of Napoleon, junior and reserve supreme champion at Perth in 1959.

- (80) **BAPTON CONSTRUCTOR** (6414), sold at 15,000 guineas, was surely one of the greatest Shorthorn sires ever to be produced in the breed. His record in the Louada Herd is really outstanding. He has created a new era in Shorthorn breeding. Bapton Constructor is the sire of many high-priced and prize-winning bulls, including the 30,000-dollar Louada Bonaparte, the first Canadian bull ever sold to Argentina, going to the famous Sittyton Herd of Señor C. Duggan. He also sired Louada Nugget, sold for 12,200 dollars to Hi Ho, and, at the recent Louada Sale, 15 bulls by Bapton Constructor averaged £2500 each. He is the sire of Louada Bomber, male and supreme champion at the Chicago International in 1958. He also sired the female and reserve female champion at the International, and his progeny won all the get-of-sires and groups.

- (81) **BAPTON ROAN ROBIN** (13110), dark roan, calved 1st January, 1957, bred by Mr. Cecil Moores—sire, Bapton Constructor (6414); dam, (432497) Bapton Augusta Margaret by Kirkton Hercules (381696).

This outstanding son of the record-priced Bapton Constructor was retained as a stock bull in the Bapton Herd. His first calf, Bapton Andree Actress, won seven 1st prizes in the junior yearling classes at Summer Shows in 1959. Being calved in September, she was giving away a lot in age to other competitors. Like all Roan Robin's calves, she is an animal with tremendous character. His first bull calf, owned by Mr. James Grigor, Lentrán, recently won the supreme championship at the Black Isle Show. His second bull calf, Kinellar Royal Robin, has been selected, when only six months old, by Mr. Wib. Donaldson, Mr. Cadesky's well-known Louada Manor Farms Manager, to succeed the famous Bapton Constructor. Kinellar Royal Robin

is acclaimed throughout Britain as the best calf of his year. He is a calf with a beautiful head, tremendous bone, substance, and quality. Another son, Von Ber Mar Roan Robin, won the supreme championship at the Iowa State Fair, when only six months old. Bapton Augusta Margaret is perhaps the best daughter of the famous Kirkton Hercules. She is a female with tremendous character and quality. Her 1959 heifer calf, by Calrossie Constellation, is perhaps the pick of last season's crop.

To keep our line breeding programme intact, we retained Bapton Roan Robin, a grandson of Calrossie Constellation, and we are mating him back to Calrossie Constellation's daughters, and from this cross we are getting practically all our best Roan Robin calves.

- (82) CALROSSIE CONSTELLATION (396200), red, calved 1st March, 1953, bred by Messrs. John & D. P. MacGillivray—sire, Calrossie Welcome (368471); dam, (318937) Calrossie Flossy Beau by Kirkton Baronet (335904).

The bull of the year in 1957 needs little comment. He is perhaps one of the greatest sires the breed has produced in recent years. His first son, the record-priced, 15,000-guineas Bapton Constructor, has created a new era in Shorthorns in North America, 15 of his sons being sold at the 1959 Louada Sale to gross £35,795. His stock to date has sold for over 250,000 dollars in North America. Other famous sons in North America are the 7000-guineas Bapton Cairnbrogie; the 4100-guineas Bapton Copyright; the 2200-guineas Bapton Cavalier; and Bapton Craftsman, sold at the Edellyn Sale to Mr. Anthony Petkus—all bulls which are making their mark on the breed over there to-day. His females are offering to be grand breeders and milkers, with good heads and grand, sound legs.

Millhills Despot was 1st and junior champion at Perth in 1947, and cost 3300 guineas.

- (86) **BAPTON CAPTIVATOR**, red—sire, Calrossie Constellation (396200); dam, (387125) Saltoun Augusta Jan by Calrossie Good News.

Bapton Captivator, purchased for £3800 at Perth in 1956, was used successfully at Glastullich before becoming stock bull of a new herd forming at Novar. Seven bulls by Bapton Captivator were sold at Perth in 1958—Glastullich Play Boy was 1st prize late January bull, and fetched £2500. The average was £528 19/-. A number of Bapton Captivator's progeny have been sold privately for export, and recently, the remainder retained at Glastullich were sold when the herd was purchased in its entirety for export to the U.S.A. Two sons bred at Novar are also being sold at this Sale.

- (87) **BEAUFORT BINNACLE** (386792), red, is a son of Cruggleton Pentland Firth, a 4000-guineas bull. Beaufort Binnacle is a full brother to Beaufort Benbow, who was bought for 1000 guineas by Mr. Durno, Uppermill. Benbow was the sire of Uppermill Bonus, sold for 4600 guineas at Perth in 1954.

- (88) **BLACKTON BERTIE** (13730), red, is by Chapelton Waverley, and his dam is by Chapelton Clansman, both sons of Cruggleton Balmoral. Blackton Bertie was reserve champion at Inverness Bull Sale, but was withdrawn for use in the herd. His dam, Blackton Flora Broadhooks, was shown at four shows as a heifer, and took 1st prize every time, and was reserve female champion at Ellon.

- (89) **MUIRSIDE PRINCE RUPERT** (12582), roan, is got by Crichton Grand Baronet, a 2nd prize bull at Perth, and bought for 1020 guineas. Prince Rupert's dam is from one of the best families of the late Mr. A. J. Marshall—a Princess, having Cruggleton Annexe and Cruggleton Perfect not far from the top sires in her pedigree.

- (90) **BEAUFORT CAUTION** (6069) won 2nd prize in his class at Perth in 1957, and was bought for the Shirgarton Herd at 1800 guineas. He won 1st prize in his class at the Royal Highland Show at Dundee in 1957, and 1st prize in his class at the Royal English Show at Norwich in 1957. He is the sire of Shirgarton Ranger, 2nd prize winner in the late-January class at Perth in 1959, and sold for 1000 guineas to Mr. Gilbert Elkin, North Dakota, U.S.A.

- (91) **COLDOCH PRINCE PHILIP** (11866)—sire, Calrossie Wildfire; dam, Coldoch Princess Royal.

Coldoch Prince Philip is junior stock bull in the Shirgarton Herd, and is breeding very well. His calves are good doers, with grand heads. His dam, Coldoch Princess Royal is one of the best cows in the Coldoch Herd, and is a uterine sister to Coldoch Ocean Swell, 1st in his class at Perth in 1957, and purchased by the judge, Señor Enrique Santamarina, for 2400 guineas.
